

RSB 2 Ericaceous Bonsai Fertiliser

RSB 2 Ericaceous Bonsai Fertiliser

N:P:K 6:4:6 + 2MgO + seaweed
organic based

RSB 2 is an ericaceous well balanced fertilizer, with added minerals including magnesium and added seaweed to help promote strong healthy and sustainable growth and flowering.

Suitable for acid loving* bonsai such as Azalea, Rhododendron and Camellia.

RSB 2 is a granule fertiliser, primarily dust and odour free (after first watering) Contains no manure.

Designed to be slow release, once applied your trees will benefit from continuous fertilising, for up to 6 weeks.

RSB 2 is also suitable for container grown plants.

*For all other indoor and outdoor bonsai and container grown plants there is RSB1 General Purpose Fertiliser.

Application:

Spread approximately 5-7 grammes per 10cm² of bonsai pot surface. Spread evenly over the soil, lightly working into the upper surface. Adjusting the amount according to the desired growth. Reapply every 6 weeks, during growing season.

RSB fertilisers will not attract pets, pests or other insects.

For hard water areas RSB 2 can be added to RSB1 general purpose fertiliser, ratio 30:70. This will have the effect of lowering the soil PH level.

Constitution:

Compound organic fertiliser NPK containing magnesium 6-4-6(+2)

6 % total nitrogen (N),

3 % organic bound nitrogen derived from bonemeal, cocoa shells and vinasses

2 % urea nitrogen

1 % ammonia nitrogen

4 % anhydrous phosphorous (P₂O₅) water soluble

6 % potassium oxide (K₂O) water soluble

2 % magnesium oxide (MgO) water soluble

35 % organic matter derived from bonemeal and cocoa shells

Store in the dry environment for indefinite use. Not for human consumption.
